EDUCATION

Master of Science – Business Analytics **Aug 2025 – Jun 2026**

California Polytechnic State University | *San Luis Obispo, CA* *GPA: 3.83*

- **Relevant Coursework:** Econometrics and Data Analysis, Financial Analytics, Essential Statistics for Business Analytics, Computing and Machine Learning for Business Analytics, Data Management for Business Analytics, Data Analytics and Mining for Business, Cloud Computing

Bachelor of Arts – Economics **Jan 2024 – May 2025**

University of South Florida (USF) | *Tampa,* FL *GPA: 3.90*

- **Relevant Coursework**: Advanced Price Theory, Analytical Tools for Economist, Introductory Statistics I, Intro Mathematical Economics

RELEVANT EXPERIENCE

Lead Financial & Business Intelligence Analyst | *Dark Alpha Capital* – Remote **Aug 2026 – Present**

- Sourcing PE deals while managing the Deal Sourcing Data Lake project, utilizing Python DAGs to cut latency 75% and expand funnel 3.2x.
- Automating firm underwriting by directing the algorithmic diligence AI engine, cutting valuation modeling from 5 days to under 4 hours.
- Leading the 'Twenty' CRM transition across developer and PE deal teams, enforcing data governance to drive 94% platform adoption.
- Managing 10 developers on DAC-CRM engineering via Cloudflare D1, enforcing strict deal stage approval gates and firm access controls.

NVIDIA Big Data Analytics Project| Cal Poly – *San Luis Obispo,* CA **Apr 2026 – Jun 2026**

- Directed a 6-person pod and collaborated with 30 stakeholders to clean 70M+ raw developer touchpoints, engineering 85 KPIs for 7.66M.
- Managed development of a LightGBM predictive model scoring 4.92M developers, driving a 25x precision lift and speeding routing by 24x.
- Delivered the top-ranked analytics solution for the client, leveraging predictive insights to capture value before a 7-day drop-off.
- Applied PCA and MiniBatchKMeans clustering to segment developer personas, isolating high-value enterprise targets for retention efforts.

Oracle Churn Analytics Consultant | Cal Poly – *San Luis Obispo,* CA **Jan 2026 – Mar 2026**

- Triaged data misclassifications across 486K+ contract logs and 1,287 accounts using SQL, resolving missing IDs for a $219M portfolio.
- Engineered a churn risk model identifying $75.0M in vulnerable ARR, demonstrating that cross-selling lifts the average ARR to $396K.
- Served as primary technical liaison for stakeholders, leading executive presentations to quantify $26.3M in revenue churn leakage.
- Executed K-means clustering to segment enterprise partners, presenting a tiered AI pricing framework that maximized renewal conversions.

RAG Pipeline & Semantic Search (IMDB Dataset) | Cal Poly – *San Luis Obispo,* CA **Aug 2025 – Dec 2025**

- Architected a Python ETL pipeline integrating REST APIs to extract, transform, and load 50,000+ unstructured records into a database.
- Integrated sentence transformers with a Qdrant vector database for semantic search and statistical similarity analysis on large data.
- Deployed Ollama and multi-agent AI frameworks to automate semantic query processing, optimizing retrieval speed for unstructured text.

Ticket Sales Data Analyst Intern | *USF Athletics* **Jan 2025 – May 2025**

- Consolidated and cleaned 417,000 ticket records across 5 NCAA Division I programs, verifying data integrity for a $1M+ revenue dataset.
- Engineered Python dashboard pipelines to replace manual Excel templates, streamlining operational inventory tracking and staff analytics.
- Evaluated cross-channel data and historical matchup demand to optimize dynamic tiered pricing strategies for premium NCAA rivalry games.

LEADERSHIP & ACTIVITIES

Graduate Assistant for Off-Campus Housing | Cal Poly – *San Luis Obispo, CA* **Aug 2025 – Jun 2026**

- Coordinated housing program outreach, event logistics, and financial planning workshops to elevate off-campus student engagement.
- Advised diverse student cohorts navigating residential transitions while independently managing outreach and administrative program logistics.
- Directed individuals toward regional legal assistance, municipal code enforcement resources, and university emergency housing institutions.

Division I Student-Athlete and Student-Athlete Leadership Academy (SALA) | USF – *Tampa, FL* **Jan 2024 – May 2025**

- Represented university at AAC regional/national championships (placing 3rd) while maintaining a 3.90 GPA alongside 20+ weekly training hours.
- Collaborated across team of student athletes to develop a business model concept redirecting restaurant food surpluses to vulnerable students.

SKILLS

- Program & Product Management: Agile/Scrum, Stakeholder Alignment, Plane, A/B Testing, Cross-Functional Leadership, Workflow Automation
- Data Science & AI: LLMs (Claude, OpenAI), RAG Systems, Multi-Agent AI, Vector DBs (Qdrant), LightGBM, K-Means, Sentence Transformers
- Analytics & Cloud Architecture: Python, SQL, AWS, Tableau, Power BI, Churn Modeling, Cohort Analysis, Financial Analytics (DCF, CAPM)
- Developer Tools: Git/GitHub, React, Next.js, TypeScript, Cloudflare D1, REST APIs, Docker, CI/CD Concept, Monorepo Architecture (Bun)
